

IIEPD

A DIGITAL FUTURE FOR ALL

Everyone Deserves a Chance to Dream and
to Aspire.

Helping to Create a Better World Through Education

Every child comes into this world with a dream. A dream for a better future and to aspire.

But not every child has a fair chance.

One in five children, aged between 6 and 17 are out of school.

This isn't right.

We believe everyone has the right to education. Education empowers young children & adults to create a better future and escape poverty once and for all.

“Education is the most powerful weapon which you can use to change the world.”

Nelson Mandela

The International Institute of Entrepreneurship and Professional Development (IIEPD) are a pioneering and CPD accredited training provider who specialise in digital marketing and professional development.

With strong links to leading marketing specialists, established influencers and industry leaders, the IIEPD are aiming to become the Harvard and Oxford of digital marketing training and professional development.

All courses provided by the IIEPD are delivered using the universally acclaimed Person-Centred approach, which puts the student at the forefront of their learning experience. Enabling students to learn to their own unique learning style.

Providing Education For All

The International Institute of Entrepreneurship & Professional Development (IIEPD) is working alongside leading charities to provide children & young adults in the developing world access to certified online training.

And with our pioneering digital education platform, everyone, no matter where they are in life, will get that fair chance.

IIEPD specialises in teaching core skills in the following areas:

- Business
- Entrepreneurship
- Digital Marketing

In learning these skills, people will become empowered and have the tools and resources to create a better life for themselves.

How Do We Do This?

LEARNER EMPOWERMENT JOURNEY

The Learner Empowerment Journey takes place in 3 steps:

1

Buy & Supply
Digital Technology

2

Deliver Online
Training

3

Provide Tutor
Support

1. Buy & Supply Refurbished Digital Technology

With your help, we raise funds to buy recycled and refurbished laptops, computers and mobile devices. Each fully-refurbished device can cost anywhere up to £85* and has gone under GDPR-compliant data wiping and asset tracking.

Once acquired, we then work with existing leading charities to distribute and implement these devices in schools and training organisations.

3. Empower Learner

On completing the training, we empower the learner by providing the support to find work online through our existing network where they can help businesses with their newly learned skills.

They have the opportunity to work with businesses in the US and UK and work on some exciting projects. For example, they can write up a series of blog articles for \$15 each or create and design a logo for \$10.

2. Deliver Accredited Online Training

We then give them full-access to our CPD accredited training where they can get access to 24/7 online training, interactive lessons and tutor support once-a-week. And depending on the learner's ability, the course can be completed within 4 to 6 months and then they can start earning.

*Get computers | ComputerAid." <https://www.computeraid.org/get-computers>.

Digital Training Providers

IIEPD are a pioneering training platform that specialises in digital marketing, entrepreneurship and professional development.

Our training is accredited by CPD, which promotes holistic learning and continuous self-improvement.

As a training provider, we are advocates of digital technology.

Every day, we are seeing digital technologies driving the local economy in the developing world. And by making digital technologies more accessible, it creates a window of opportunity for everyone.

And with your help, we can provide this opportunity to all.
